

Pick $a=1$, the first positive zero of Bessel function at order=2 is $k_w=5.13562230184068$

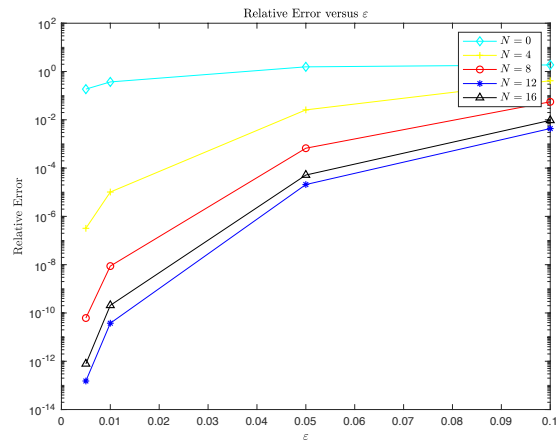

3 operators: DNO, IIO with $\eta=3.4$, IIO_new with $S_0=Q_0=0$ (special choices of Y and Z)

3 k_w (radius $a=1$): Non-zero Bessel, the root+ 10^{-12} , the root+ 10^{-16}

Only the outer layer (DNO on U , IIO on U)

DNO

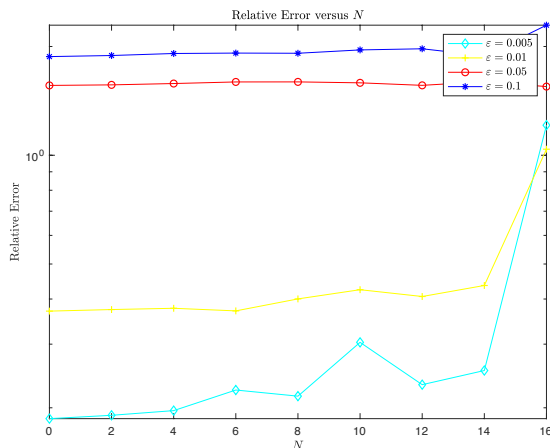

Non-zero Bessel

root+ 10^{-12}

root+ 10^{-16}

IIO Non-zero Bessel

root+10⁽⁻¹²⁾

root+10⁽⁻¹⁶⁾

IIO_new Non-zero Bessel

root+10⁽⁻¹²⁾

root+10⁽⁻¹⁶⁾
